- <https://quotes-front-end-completed.vercel.app/>

INTERESTS

Reading Books

Listening Music

Following Tech and Business News

TECHNICAL SKILLS

Frontend: HTML, CSS, Bootstrap, JavaScript, ReactJs, Redux

Backend: Python, Express, Node JS, Authentication

Databases: SQLite, MongoDB

Other skills: Flexbox, GitHub, Responsive Design

KEY SKILLS AND STRENGTHS

- Persistence
- Problem-solving skills
- Verbal and Communication
- Adaptability

CERTIFICATIONS

React JS

Earned a certificate for completing a React JS course, where I developed numerous front-end assignments and solved various coding questions, enhancing my skills in modern web development.

Node.js

Successfully completed a Node.js course, mastering backend development with assignments focusing on REST API implementation, JWT token authentication, user authorization, and utilization of Express.js, showcasing proficiency in building scalable and secure server-side applications.

SQLite

Completed an SQLite course, gaining fundamental skills in database management. Developed proficiency in creating and managing tables, performing CRUD (Create, Read, Update, Delete) operations, and executing complex joins. Enhanced my ability to model databases effectively, ensuring data integrity and efficient query performance.
